

AMPLIFIER

Series OA 9214

The OA 9214 is applicable with all transmitters/ receivers operating with separate amplifiers.

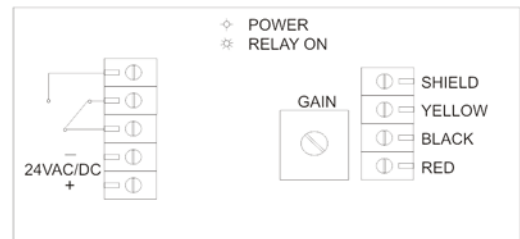

- Small dimensions
- LED indication of amplifier activation
- Relay output
- Terminal blocks for connection.

Technical data

Supply options:	024VAC/DC $\pm 15\%$ at AC 45-65Hz
Power consumption:	<75mA
Output: -Relay:	single pole changeover 125VAC, 2A 250VA
Modulation Frequency:	approx. 7,5KHz
Response time:	Typ. 25msec.
Ambient temperature:	- 20°C to + 60°C
Dimention:	Box: 100x50x24mm - material: ABS (black) PC: 78 x 44mm
Gain control:	Allows 10:1 change
Weight:	max 100 g

Wiring diagram

Type no.

Identification code

Dimension (mm)

014200	OA 9214 with box	024VAC/DC relay output
015550	OA 9214 without box	024VAC/DC relay output
